PROFESSIONAL SUMMARY

Self-taught, results-driven Full Stack Web Developer with 3+ years of experience shipping production-grade web applications end to end. Specialises in Next.js, React, TypeScript, and PostgreSQL, with a track record of building scalable SaaS platforms, GitHub integrations, and AI-powered features. A strong communicator and dependable team member, comfortable working autonomously across fully remote, international teams.

TECHNICAL SKILLS

Frontend: Next.js, React 19, TypeScript, Tailwind CSS v4, HTML5, CSS3

Backend & Data: Node.js, REST APIs, PostgreSQL, Drizzle ORM, Neon PostgreSQL

Platforms & Tools: Docker, Dokploy, Git, GitHub, Octokit, CI/CD Pipelines, n8n, Zapier

Integrations: Stripe Billing, Vercel AI SDK, Better Auth, OAuth, next-intl (i18n), Fumadocs/MDX

Ways of Working: Agile/Scrum, clear written and verbal communication, strong team collaboration, self-directed learning

PROJECTS

MySelf Pilot, Full-Stack SaaS Platform

Next.js, React 19, TypeScript, PostgreSQL, Drizzle ORM, Stripe, Vercel AI SDK, Docker

Live: <https://myselfpilot.com>

A middleware hub connecting autonomous taxi, delivery, logistics, and public transit operators on one platform for shared payments, tariffs, and fleet data. Sole developer for the entire build: architecture, UI, testing, and production deployment. Delivered multi-provider authentication, subscription billing, and AI-powered chat and image tools across 8 languages.

AXONS Protocol, Consortium Platform & AI Skill Registry

Next.js, TypeScript, PostgreSQL, Drizzle ORM, Fumadocs, Octokit, Vercel AI SDK

Live: <https://axonsprotocol.com>

Registry: <https://www.skills.sh/germangalia/axons-agents-skills>

Documentation and community platform for an open IoT communication standard built on TLS 1.3 and Ed25519. Owned every layer independently, from backend services to deployment, including 170+ reusable components and a GitHub-synced proposal system via the Octokit API. Also designed and published a companion AI agent skill registry that turns protocol specs into machine-executable workflows, installable via npx.

Open CAV Alliance, Protocol Specification Site

Next.js, TypeScript, Tailwind CSS

Live: <https://opencavalliance.com>

Marketing and specification site covering a set of vehicle-to-vehicle and vehicle-to-infrastructure communication protocols. Designed, built, and deployed independently, turning dense technical protocol documentation into a clear, developer-friendly interface.

PROFESSIONAL EXPERIENCE

Full Stack Web Developer, Freelance (Self-Employed)

Nov 2023 - Present

Remote, International Clients

- Designed, developed, and deployed full-stack web applications using Next.js, React, TypeScript, and Node.js for clients across multiple industries.
- Architected multi-tenant SaaS systems with Stripe billing, role-based access control, analytics integrations, and transactional email workflows.
- Integrated third-party REST APIs and custom back-end services, reducing manual client workflows by an estimated 30%.
- Built fully responsive, mobile-first interfaces with Tailwind CSS and automated repetitive business workflows using n8n, saving clients 5+ hours per week.
- Managed project delivery in agile sprint cycles, consistently completing deliverables ahead of schedule with clear documentation.

ESL Tutor, Preply (Freelance)

May 2023 - Present

Remote, International Students

- Delivered 100+ personalised one-on-one English sessions to students globally, maintaining a high tutor rating.
- Designed customised digital lesson plans aligned to individual student goals, fostering strong retention and positive reviews.

EDUCATION & CERTIFICATIONS

Diploma in IT Management, Rosebank College, Johannesburg (Feb 2022)

- 120-Hour TEFL Certificate, Teachers Record
- Preply Language Teaching Certificate, Introduction to Language Teaching Methodology
